

Initiative

We will show our initiative by *being resourceful and working without always being told what to do. Showing both perseverance and trusting in ourselves, in order to demonstrate that we can think independently and act when necessary.*

Spirituality

As part of our spiritual, moral and cultural development we will *be considering what Christians learn about the creation story. We will be investigating settlements across the world and considering their purposes and how they have changed over time. In PSHE, we will be exploring how we can look after our special people, how we can solve problems and we will be considering our friendships. We will be developing our strategies for working collaboratively.*

Learning Drivers

Creative arts

Using our creative skills, we will *draw, label and annotate diagrams of settlements. We will learn and perform pieces on the recorder during our music lessons. We will produce drawings of 2D buildings, focussing on the architectural design of the building.*

Environment

As people concerned with our environment, we will *learn different settlements along with the human and physical features of them. We will discuss how settlements have changed over time. In computing, we will learn how technology has changed how we communicate with each other while understanding how we can remain safe.*
