

Initiative

We will show our initiative by *being resourceful and working without always being told what to do. Showing both perseverance and trusting in ourselves, in order to demonstrate that we can think independently and act when necessary.*

Spirituality

As part of our spiritual, moral and cultural development we will *use National Science Week to observe and be curious, and 'be still' reflecting in our natural environment. We will consider the awes (the WOWs) of the world, yet also the 'OWs,' thinking about how we can be more environmentally aware. We will consider why Christians believe Jesus 'saved' people.*

Creative arts

Using our creative skills, we will *recreate Queen Elizabeth's Royal Progress in Worcester, using primary sources to help us. We will use technical skills in DT to plan, design, create and evaluate a 3D pop up Easter card. We will use Purple Mash to design, write and debug programs using coding skills. In English, we will create a poem on evolution, using narrative poetry features. In Music, we will learn about Samba and take part in a whole school workshop.*

Learning Drivers

Environment

As people concerned with our environment, we will *consider how evolution has changed the world in which we live in now, understanding how living things adapt to their environments. During National Science Week, we will focus on sustainability learning about Severn Trent, the local incinerator and take part in some sustainable activities in school and the spiritual garden with Mr Pritchard.*
